

Vacancy

Railway Telecommunication Engineer

RB Rail AS office in Riga (Latvia)

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful job in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **Railway Telecommunication Engineer**.

Job summary

The responsibilities of the Railway Telecommunication Engineer include preparation, review and approval of technical documentation and coordination of technical designs. The geographical area of responsibility covers the whole Rail Baltica project corridor in Estonia, Latvia and Lithuania.

What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professional colleagues

Salary from 3500 EUR (before taxes)

We will entrust you to

- Elaborate and review project technical documentation, i.e. requirements, specifications, technical solutions, designs, bills of quantities
- Review deliverables produced by designers and/or suppliers
- Participate in project planning and implementation tasks
- Ensure technical coordination for designs
- Cooperate closely with project stakeholders: National Implementing Body, Engineer and Works Contractor.

To succeed, you should have

- Bachelor's degree or equivalent in Electrical Engineering, specialisation in the field of Telecommunications or Railways
- Proactivity and energetic personality with recorded work experience of at least 3 years as a Designer or Technical Project Manager in several design or construction projects for fibre optics, backbone transmission networks, voice communication systems, control or data centres
- Analytical mind and ability to see both the large picture and technical details
- Well-developed communication skills, with ability to effectively interact in person and remotely with both, the business partners and internal technical team members.

Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV and motivation letter in English with the subject "RAILWAY TELECOMMUNICATION ENGINEER" to RB Rail AS recruitment partners SIA ASTRAL Executive Search: railbaltica@astralexecutive.com by the deadline date.

RB Rail AS as a controller and SIA ASTRAL Executive Search as its respective partner ensures that data processing within recruitment process (for recruitment and hiring related purposes) is carried out in accordance with regulations on the protection of personal data processing.

More information regarding candidates' personal data processing is available here: <https://www.railbaltica.org/about-rail-baltica/candidates-personal-data-privacy-note/>
