

Vacancy

## RAMS Manager

RB RAIL AS office in Riga, Latvia

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for meaningful job in an international setting, look no further. This is where you can make an impact to be proud of.

You will lend a hand in integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in a position of **RAMS Manager**.

## Job summary

RAMS Manager will ensure the correct implementation of the RAMS Design Guideline and processes of Rail Baltica, thus supervising the overall project RAMS lifecycle for all the railway systems, and lead and monitor all RAMS activities and deliverables to be provided by all stakeholders involved in Rail Baltica project, from conception up until commissioning phases.

Also, the RAMS Manager will be responsible for producing the system level RAMS documentation in compliance with the applicable directives and standards like EU Directive 402/2013 (CSM-RA) and CENELEC 5012x, that supports the achievement of the mandatory certificates and approvals by different entities such as the Assessment Body (AsBo), European Railway Agency (ERA) and the National Safety Authorities (NSA) of the three Baltic countries.

## What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professional colleagues

Competitive salary

## We will entrust you to

- Manage the RAMS Team, plan team resources, workloads and budget
- Lead, coach, advise, support and develop the RAM and Safety Engineers
- Establish and ensure the implementation of RB Rail RAMS Design Guidelines and processes by all stakeholders, internal and external
- Contribute to Safety Awareness in Rail Baltica project
- Produce RAMS deliverables for global Railway system in compliance with directives and standards like EU Directive 402/2013 (CSM-RA) and CENELEC 5012x.
- Contributes to the achievement of approvals and certifications from RAMS perspective (AsBo, ERA, NSAs)
- Coordinate the RAMS Audit for RBR projects
- Take part in Design review process - administration review of design packages, RAMS coordination with Designers
- RAMS coordination with Implementing Bodies

## To succeed, you should have

- 15+ years' experience as RAMS engineer
- 5+ years' experience in railway industry
- Proven experience in leading and coordinating a team
- Proven experience in organizing training about RAMS
- Extensive knowledge of EN 50126, EN 50128, EN 50129, ISO 31000
- Extensive knowledge of EU Directives 787, 789 and EU regulation 402
- Proven experience in RAM methods applied to Railway industry implementation such as RAM Analysis, LDA, DFMEA, PFMEA, FMEA/FMECA, RCM, FRACAS
- Experience in asset management will be considered as an advantage
- Proven experience in Safety risk methods applied to Railway industry implementation such as PHA Analysis, FTA, HRA, PFMEA, FMEA/FMECA, RCM, FRACAS
- Reliability Certification: CRP; CRE will be considered as an advantage
- Resilience to coping with conflicting demands, able to prioritize duties and work under pressure

## Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV and motivation letter in English with the subject "RAMS MANAGER" to RB Rail AS: [jobs@railbaltica.org](mailto:jobs@railbaltica.org) by the deadline date.
